

Oneness is not a defined path, belief system, or new religion. It is a journey that unfolds through your own inner integrity and growth. Oneness meets you where you are with a set of evolving tools, events, and resources to empower you as you continue walking your unique path. The tools are practical and universal. They will assist and support you on your personal experience of self-discovery. As you experience an inner sense of peace, love and connection with all of life, you naturally contribute to the healing of our planet and those around you.

We at Oneness Oregon are committed to this vision.
